

Get rid of DeJoy and bring back service and honor to the USPS!!!! The corruption isn't even subtle.

Seriously! How is this guy still there? He's slowing service intentionally, killing the USPS in favor of private delivery companies while owning one. That is a clear Conflict of Interest, which should have barred him from ever being confirmed in the first place.

How much damage was done to private businesses with his slowdown like all the rotted food, dead animals, missing Rx's, and time-sensitive deliveries that are probably still on the floor somewhere? I'm shocked there's not a Class-Action lawsuit by now against the USPS that the Tax Payers will have to pay for, which it should cost DeJoy personally.

How is he not in prison??? <https://lawandcrime.com/2020-election/the-heat-is-on-legal-experts-say-postmaster-general-committed-stunning-array-of-crimes-including-wire-fraud/>

This is just another sad episode that's made the US a laughingstock around the globe. How the Board can even look in the mirror is mindboggling.
